# INTRODUCTION

## and GENERAL INDEX

---

R. L. POLK & CO., publishers of more than 1,000 city, county, state and national Directories, present to subscribers and the general public, this, the 1962 edition of the Gloucester City Directory, including Rockport.

Confidence in the growth of Gloucester's and Rockport's industry and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Gloucester and Rockport to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Gloucester and Rockport Directory will fulfill its mission as a source of authentic information pertaining to the cities.

### Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department, printed on goldenrod paper, and contains the advertisements of leading manufacturing, business and professional interests of Gloucester, including Rockport. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In progressive communities like Gloucester and Rockport, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

II. THE CLASSIFIED BUSINESS DIRECTORY is the second major department, printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such, it plays an important part in the daily activities of the commercial, industrial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the third major department, printed on white paper. This is the only record in existence that aims to show the name, marital status,

occupation and address of each adult resident of Gloucester, including Rockport, and the name, official personnel, nature and address of each firm and corporation in the city.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the fourth major department on green paper. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

### **Community Publicity**

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Gloucester and Rockport.

### **The Gloucester Directory Library**

Through the courtesy of the publishers of the Gloucester City Directory, a Directory Library is maintained in the offices of the Gloucester Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in the chief cities of the United States and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,  
Publishers.

## Statistical Review

Form of Government—Plan E (PR) with City Manager.

Normal Population—25,966.

Summer Population—40,000 estimated.

Area—Thirty-six square miles.

Altitude—Fifty-seven feet.

Assessed Valuation—Personal \$4,418,400 (1961); Real Estate \$50,347,350 (1961); Automobile \$6,387,350 (1961); Vessels \$1,026,825 (1961); with \$69.00 (1961) tax per \$1,000.

Native Born Population—85 percent of whole population.

Predominating Nationalities in City—Native American, Italian, Portuguese, Finnish, English.

Parks and Playgrounds—Sixteen with 700 acres.

City's Bonded Debt—\$1,819,000 (Oct. 1, 1961).

Financial—Cape Ann Bank and Trust Company, and Gloucester National Bank with total combined resources of \$24,200,000; Cape Ann Savings Bank with total resources of \$20,200,000; Gloucester Cooperative Bank with total resources of \$12,000,000.

Post Office Receipts—\$293,830 (Oct. 1, 1961).

Telephones in Service—12,675.

Church Buildings—Twenty-one.

Trade—Territory (Retail) serves 40,000 people within the trading area covering a radius of thirteen miles.

Hotels—There are two commercial hotels open all year, with total of forty rooms; also 3 hotels which operate only in the summer months. There are motels, motor courts, light housekeeping cottages, guest homes, and other facilities to accommodate summer guests.

City Served By—Boston & Maine railroad.

Amusements—There are two theatres, with a total seating capacity of 2,132 people, also a drive-in theatre off Route 128 at Exit 3, car capacity, 663.

Hospitals—(1). Fully approved general hospital with maternity service; 119 beds, 25 bassinets, can expand up to 135 beds without difficulty. Maintains referral out-patient department. Surgical, Medical and Dental staff includes 35 local doctors and dentists plus consulting staff of approximately 20.

Education—Public: 1 High School, enrollment 1,700; 1 Central Grammar School, enrollment 932; 14 elementary including primary schools, 4 ultra-modern completed within past 12 years, enrollment 2,506. Parochial: 1 High School, enrollment 130; 1 Grammar School, grades 1-8, enrollment 640; Second parochial school expected to operate during

1962, grades 1-8, expected enrollment, 400. Private: 1 school, grades 1-8, enrollment 150. Value of all school property, private and public approximately \$7,000,000.

Libraries—Central Library in City contains 34,000 volumes in adult section and 13,000 in children's section. It also has 750 recordings. Branch libraries are maintained in Annisquam, East Gloucester, and Magnolia.

City Statistics—Total street mileage 392, with 332 miles paved, 60 miles unpaved. Miles of gas mains laid, 62; sewers, 32 miles main lines (approximate). Capacity of water works (municipal) 1,320,000,000 gallons, daily average pump of 2,855,000 gallons with 119 miles of mains and value of plant estimated at \$4,188,000.00. New distributing reservoir has been built at Bond's Hill, with a 6,000,000 gallon capacity.

Fire Department—Central Station, city proper. Substations at Magnolia, East Gloucester, and Bay View. Employs 73 men including a Chief, 3 Deputy Chiefs, a Motor Supervisor, 6 permanent Captains, 46 permanent men, 8 reserve men, and 8 call men, with the following equipment: 7 pumping engines (2 in reserve), 2 ladder trucks, 1 combination hose and water truck, 1 squad wagon, a chief's car, and 1 combination police and fire boat, 1 forestry truck, 1 jeep and 1 service truck. Value of fire department property, approximately \$300,000.

City Electrician—Has 1 car and 1 truck in service.

Police Department—Has 36 regular men, 8 superior officers and 9 reserve men with 1 station and 7 pieces of motor equipment and 1 combination police and fire boat. Six pieces of apparatus and the police boat are equipped with two-way radios.

### Geography

Gloucester is located about thirty miles northeast of Boston, Massachusetts. The original town of Gloucester occupied the whole northern promontory of Massachusetts Bay, known as Cape Ann and was bounded on the north by Ipswich Bay, on the east by the Atlantic Ocean, on the south by Massachusetts Bay and on the west by the towns of Manchester, Essex and Ipswich.

Cape Ann is divided into two nearly equal sections by the Annisquam River, an arm of the sea extending from Ipswich Bay about four miles towards and into Gloucester Harbor. Gloucester of today retains practically its same boundaries and includes the following districts: Magnolia, Annisquam, Riverdale, West Gloucester, East Gloucester, Bay View and Lanesville. The northeastern portion of the Cape, however, which was included in the territory of the original town of Gloucester, is separated into what is known as the town of Rockport, the extreme end being known as Pigeon Cove.

The principal harbor is on the south side of the city and is formed by Eastern Point—a strip of unequal width extending in a southwesterly direction about three miles—a rock bound coast that defies the violence of surging waves dashing almost constantly against it, and affording within a safe shelter and anchorage for a large fleet.

The surface of the town is uneven; and its peculiar character strikes every beholder at first sight with astonishment. Bald, rocky hills, bold and precipitous ledges of

rock, with acres of boulders of various sizes, in many places scattered thickly over the surface, combine to present a rare scene of naked ruggedness. The small tracts and patches of clear land, by which this view of barrenness is occasionally relieved, are covered with a strong and fertile soil, suited to the growth of most of our New England agricultural products.

The rocks of Cape Ann are granite, of a beautiful, dark color and are easily wrought into blocks of any needed size. Quarries formerly operated in different localities, several at Rockport, at the lower extremity of the Cape; others at Lanesville and at Bay View—suburban districts of Gloucester proper. The products of these quarries in the form of monuments, decorative ornamentations, paving blocks, etc., have been shipped to every part of the world.

In all, Cape Ann is picturesque. It is truly typical of the rock bound coast of our northern Atlantic States. A drive around the shore road from which an open view of the ocean is afforded practically throughout the entire route, presents a picture of rugged rocks dashed over with spray, these interposed with as many as forty beaches of various sizes around the entire Cape. The drives around Cape Ann are pretty. The inland roads through wooded sections of hard-wood growth give a touch of country life in sharp contrast to the rugged scenery along the shore.

### History

From the time of the early explorers, Gloucester, Mass., has occupied a large place in the history of New England and the nation. It is claimed that the Norsemen in 1001 skirted the New England Coast, which they called New Vineland and landed here. It has also been said that they called the place "Kroasnes," the Cape of the Cross; that they were attacked by the Indians, their chieftain, Thorwald, being killed and buried on shore. In 1605, as authentically recorded, Champlain, on a voyage of exploration and discovery sailed about the cape which he named CAPE AUX ISLES.

The next year in early September he founded what is now Eastern Point and came to anchor in the inner harbor between Five and Ten Pound Islands—so named for the sums for which they were purchased from the Indians in Colonial times. Champlain was charmed with the place and made a prolonged stay. His name for it was singularly appropriate, "Le Beau Port," the Beautiful Harbor.

After Champlain's departure came Captain John Smith and Miles Standish with his company of followers. The honor of making the first settlement, however, which was also the first permanent settlement in Massachusetts Bay, belongs to the Dorchester Colony, a company formed by the Rev. John White, a Puritan minister, rector of St. Peter's church of Dorchester, England. His colony sailed for and reached what is now Gloucester in 1623, not, as had been supposed, for the purpose of escaping religious persecution. Its real object was the pursuit of the fisheries which had been successfully carried on off the New England Coast since 1606. The site of the first settlement was at Stage Fort, now a public reservation known as "Stage Fort Park,"

where their landing is suitably commemorated with a bronze tablet which bears an inscription telling the story of their original landing.

In 1624 Roger Conant was appointed Governor and the Colony attracted much attention. Its interests were concerned entirely in fishing and farming. The fisheries were successfully pursued and good catches sent to Balboa, Spain, but the arable land of the Cape was exceedingly limited. This latter fact resulted in the agricultural part of the colony moving to Salem. Those remaining, however, were joined by others from time to time, among them being a colony from Plymouth in 1630. In 1632 the first church was built and services held. In 1639, the General Court was asked to incorporate the town. A charter was granted in 1642, the town taking the name of Gloucester from the cathedral city in England, whence many of the early settlers came.

The history of Gloucester is entwined with events of national importance. It tells us the story of the expedition against Louisburg, the Gibraltar of America,—how these men, in a craft commanded by Captain Sanders and in a land company under Captain Byles, gave splendid service in reducing that stronghold; they were with Wolfe at Quebec and were in the foreground when the flag of France was lowered for the last time on the American Continent. In the Revolutionary War, the Civil War, in the Spanish American War and in the World War, the call to arms has ever been answered by the population of this fishing city. Their services have been rendered on land and sea and they have left behind a record of which any community may well be proud.

### Fisheries

Destiny ordained that Gloucester should be the first and greatest fishing port in the New World. Back as far as 1602, that daring navigator, GOSNOLD, found that cod-fish were plenty in Massachusetts Bay and for twenty years before a permanent settlement was made here, the fisheries were pursued off this coast with profit. Destiny also took a hand when the Dorchester Company set out from England in 1623 to engage in a fishing trip and also to found a permanent colony. The ancient records tell us that the expedition had no definite place in view for settlement and that arriving late in the season at the fishing grounds on the Maine coast, finding the fishing poor and in hopes of making up a full fare, the voyage was continued to Massachusetts Bay. Our first colonists, therefore, were fishermen and the first business of the place was fishing.

With the exception, possibly, of a very few years immediately following 1626, the fisheries have been followed from this port throughout all these 300 years, practically without interruption. Its history is a fitting story of a hardy race of fisher folk, who have ever braved the call of the deep in the pursuit of their industry which today ranks as the oldest in Massachusetts. It teems with stories of self-sacrifice and valor. It has been a costly industry, however. Braving the storms and perils of the ocean in seeking their existence, scouring the seas almost to the Arctic Circle in their perilous quest, at the mercy of the storms

and the heavy fogs, the treacherous shoals and drifting boats, over 8,000 of these men have been sacrificed in this perilous calling.

The name of Gloucester has been associated with the curing, catching, packing and distribution of fish since its early settlement in 1623. This industry may truly be said to be the corner stone upon which the city's prosperity and reputation has been based, although at the same time other pursuits have gained ground and prospered.

Gloucester presently has 25 firms engaged in handling and processing fish. Of this number, five are engaged in fish cooking processes, principally fish sticks. The total number employed in shore processing and fish cooking plants varies from 1,100 to 2,600 during the peak production season.

Production of cooked fish items in 1960 amounted to 27,262,000 pounds, of which 21,900,000 pounds were fish sticks. The base product from which fish sticks and other cooked fish items are made are from frozen blocks of fillets, principally cod, imported from Canada, Nova Scotia, Newfoundland, Greenland, Iceland, and more recently from Norway and Denmark. These imports come in principally by cargo steamer, although large amounts are trucked from other ports of entry. Gloucester in recent years has developed into a distributing port of fish blocks to fish stick processors all over the country—as far as the Pacific Coast. Of the total landings of fish blocks in 1960, 24,100,000 pounds were re-shipped via refrigerated trucks to operating plants in other sections of the country.

Gloucester has upwards to 150 vessels of 5 to over 100 tons gross engaged in off-shore fishing, and more than 100 under five tons engaged in inshore fishing and lobster fishing. Crews of Gloucester fishing vessels total upwards to 2,000.

Gloucester has a State Fish Pier which started operating early in 1939, located at the foot of Parker Street and over-lapping what formerly was Five Pound Island. It has a modern cold storage plant with capacity of 7,500,000 pounds. This pier is equipped to engage in an extensive fresh fish business. Individual stalls are rented to operating firms. 9 facilities now provide Gloucester with a total of 52,650,000 pounds of cold storage space, and a total daily freezing capacity (24 hours) of approximately 1,750,000 pounds. Landings of fresh fish at Gloucester increased from 75,661,000 pounds in 1939 with a value to fishermen of \$1,202,000 to a total of 192,406,000 pounds in 1960 with a value to fishermen of \$6,330,000. Gloucester is one of the largest fish producing ports in the country. Gloucester also has two plants engaged in fish by-product manufacture. These plants use waste resulting from fish processing and non-edible fish (principally menhaden) for extraction of fish oils and the conversion to fish solubles and fish meal used in the processing of poultry and animal feeds.

### **Manufacturing and Local Industries**

Gloucester has many other industries aside from the fisheries but one directly connected with these, is the manufacture of liquid fish glue. The ancient Greeks and Romans knew that a strong adhesive could be extracted from the

skins of certain fish, and used this adhesive for such delicate purposes as fastening precious stones in their setting. Fish glue, however, was made in very small quantities and had to be used immediately. It was not until the last century, sometime between 1870 and 1875, that liquid glue was made a commercial possibility by the discovery of means whereby it might be permanently preserved in liquid form.

Formerly, quarrying of granite was a very important industry. In recent years, quarries at Rockport have been closed, and the industry there is concerned principally at the present time in the cutting of granite pavement blocks.

Awnings, barrels, boats, bread, castings of iron and brass, cigars, codliver and vitamin oils, copper, marine and house paints, dip nets, drop forgings, fish—fresh, salted, smoked and canned, fishlines, fish meal, fishing tackle, fish traps, glue, granite, hammocks, hawsepipes, inks, iron forgings, ironwork for vessels machinery for cold storage, masts, men's, women's and children's clothing, mucilage, nets, overalls, pants, paste, pastry, patent bits, patent steering wheels, porch dresses, printing, protective outer clothing, rudder braces, sails, seines, sheeplined coats, ships' blocks, smokestacks, spars, steel forgings, stove polishes, street dresses, tanning oils, tents, traffic signs, trawl nets, truck bodies, ventilators, vessel steerers, windlasses for vessels, wooden boxes and drums, yacht steerers.

While Gloucester is situated far from the sources of supply of some raw materials, it has several advantages over inland cities. For instance, the city is on the sea coast where it can obtain various supplies direct by water, at a cheaper rate than by rail. It is located on the Boston & Maine Railroad, with a schedule of sixteen trains daily to and from Boston. Route 128, opened to traffic in 1953 with a high-level bridge over the Annisquam River. Route 128 is a modern double-barreled highway into Gloucester with a circumferential connection to the State Fish Pier and to Route 127 into Rockport. Route 128 connects with all major highways to New York and to points west. Routes 133 (formerly 121) and 127 also are primary highway routes into Gloucester.

### Summer Colonies

The whole of Cape Ann is an ideal resort for the summer tourist. Its admirable location, surrounded practically on every side by the open sea, its magnificent summer climate, never extreme on the hottest days in summer; its natural rugged beauty; its many beaches, both large and small; its pretty inland roads through hard wood groves; its splendid summer cottages and hotels; all combine to make Cape Ann a splendid summer home for those who wish to escape the monotony of city life. Gloucester has long since taken its place as the ideal summer resort. To point out any particular charm it may hold for the summer visitor is difficult, for the attractions are many and of sufficient varieties to satisfy the most exacting critic.

It combines within a radius of one-half dozen miles practically every type of natural scenery found anywhere. Its picturesque harbor wharves, inspiring in thought the 300 years of struggle with the sea that its fishermen have endured in the pursuit of its industry; its many boats entering

and leaving the harbor in plying their trade; its foreign fishing colonies,—those of the Italian and Portuguese; its beaches and parks; combine to make Gloucester ideal to the tourist.

### Churches

Church influence is strong in Gloucester, many social and welfare activities centering in the church organizations, of which there are twenty-one in the city. The first church was organized in 1632.

There are over ninety clubs and fraternal organizations in the city, including the Woman's Club, Rotary Club, The Kiwanis Club and the Gloucester Chamber of Commerce.

Good government, good roads, good schools, congenial social conditions, a high standard of citizenship, convenience to shipping points, nearness to a market, excellent transportation facilities, abundant recreational and amusement facilities, the advantages of homes in the open spaces combined with urban conveniences—these are the qualities that go to make a city desirable—and Gloucester has them all.

### ROCKPORT

Rockport, or Sandy Bay, as the town was formerly called, was a part of Gloucester until 1840 when it was incorporated and set up its own town government. Like Gloucester, its inhabitants early engaged in the fishing industry, but not possessing the facilities for large vessels, the pursuit of this industry has been largely confined to the shore fisheries, the trapping of lobsters forming the major portion of the business as carried on today.

Rockport granite is known the country over and the quarries at Rockport, Pigeon Cove and Bay View have produced many thousands of tons of this valuable stone and have furnished employment to several hundred workmen. The industry dates from about 1823, when the quarries were first worked, and has furnished granite for government fortifications and navy yards, Boston Custom House Tower, Woolworth Building in New York, and Brooklyn Bridge.

The summer colony has grown considerably in the last twenty years. A cleaner and more wholesome town in which to spend the summer cannot be found in New England. There are a number of good beaches, a beautiful shore drive, and the ocean scenery is unsurpassed. Many artists make their homes here during the summer months and find interesting subjects to transfer to their canvasses along the quaint old wharves and rugged shore.

The breakwater erected by the government has given Rockport a safe harbor, available for large vessels of all types, and the town is often visited during the summer by some of the fleets of United States Warships.

### Gloucester Chamber of Commerce

The Gloucester Chamber of Commerce is organized for the service of the public and for the promotion of the business and industrial growth of the community. Further information regarding manufacturing opportunities, business facilities and residential advantages, will be gladly supplied upon request by the Gloucester Chamber of Commerce, 120 Main Street.

**PLEASE! Do Not Lend Your CITY DIRECTORY****IT COSTS YOU MONEY—Every Time it Is Loaned**

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Do your employers furnish you with  
the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

M-E Elec .....	Merrimack-Essex Electric Co
NET&T .....	New England Telephone & Telegraph Co
United Shoe .....	United Shoe Machinery Corp (Bev)

**EXPLANATION**

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in **heavy type** denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership of co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address, other members of the family and roomers are indicated by r preceding the street address.

A natural by-product of the Directory business is the compilation of Mailing Lists. If interested, ask for our Catalog, "Mailing Lists That Pull."

*Do your employers furnish you with the  
latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## 1962

### INCLUDING ROCKPORT

Copyright, 1962, by R. L. Polk & Co.

Giving the location of Streets, Avenues, Places, Parks etc, showing what other streets and places run from or across them, and with a list of Householders and Places of business arranged in numerical order upon their respective streets.

The streets are arranged in alphabetical order with the location of intersecting streets clearly shown.

The symbol © following the name of a householder indicates that the house is owned by the person listed, or by some member of the family. This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

The Δ preceding names denotes householders and places of business having telephones.

\* Denotes houses incorrectly numbered.

This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

The numerals that appear at right edge of columns ahead of street descriptions and some street intersections are merely for the guidance of the publishers and have no other significance.

# CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.
